

## VTEL's All-In-One Conference Room System

The VTEL IPanel 3200S seamlessly blends advanced **videoconferencing**, advanced **computing**, and advanced **HDTV viewing**.

**SightSpeed  
BUSINESS**

**The VTEL IPanel 3200S is a high performance videoconferencing system.**

- Professional Pan-Tilt-Zoom camera so you can zoom out to cover the entire room or zoom in on a speaker, white board drawing, or object.
- Echo canceling microphone for natural, business-quality audio without headsets.
- The VTEL IPanel 3200S uses SightSpeed videoconferencing software. The system can be upgraded to include H.323 videoconferencing.

## VTEL IPanel 3200S

**SightSpeed  
BUSINESS**

**In the Home Office conference room**

**The VTEL IPanel 3200H is a high performance Intel CoreDuo computer with Microsoft XP Professional.**

- The built-in computer has an Intel CoreDuo processor, 512 Mbytes of RAM, 80Gbyte drive, and a DVD Combo drive. Add Microsoft Office and you can present your PowerPoint slides in a local meeting or in a videoconference.
- There are 3 available USB data ports for custom peripherals and expansion.

**The VTEL IPanel 3200S is a professional grade 32" LCD monitor with a HDTV tuner.**

- High resolution (1366 x 768 pixels) and Multi-scanning PC monitor support up to 1280 x 1024 for ultra sharp data displays and television program viewing.
- View a television channel (like CNN) by itself, or while surfing the Internet, or while in a videoconference.

**All functions are displayed on the professional grade LCD HDTV monitor. All operations are under the control of VTEL's wireless keyboard/mouse.**

**"All-In-One" means a clean uncluttered conference room and a single user wireless interface to control everything.**

Your conference room always presents a professional, efficient, and modern environment with the VTEL IPanel 3200S. It is perfect for branch offices, professional services offices, and home offices where space and operating costs are limited.

There is no need for IT support people to set up the equipment. It installs like any other PC, only quicker. All components arrive assembled. We will provide you one hour per site of telephone installation support FREE to make sure everything is working. You will also successfully make your first videoconference call with us over the public Internet.

### **Simple Pricing**

The price is also simple. The VTEL IPanel 3200S is **\$3,995** complete with a one-year warranty covering the entire system.
